

Private Home Care by Rachel & Nicky

Hello! Thank you for taking the time to get in touch with us, please read the following below before getting started.

We know circumstances can change, by filling out this form it gives us a rough idea of the current situation, but of course, we will also discuss further down the line if needs change to ensure we are able to continue caring to the best of our ability, where we can.

Please bear in mind, being private carers of two, we are unable to offer night shifts. We aim for our clients to not have very high nursing needs that require us both to be present at one time, 7 days a week. We can make exceptions, for example, if we are not needed together for 7 days running.

We offer hours of morning right through to evening/bedtime.

We charge a standard set rate of £26 per hour for one carer to be present, if both of us are required to be present together, then it will be £40 an hour (£20 per hour per carer), this price reflects the quality of care we provide.

We do not administer medication, unless provided to us in a dosette box, so clients will have to be capable of administering their own medication, unless dosette boxes with medication in are supplied to us.

Once we have received your form, we will be in touch to discuss if you would like to meet both of us, Rachel and Nicky, free of charge, so you can get to know us and understand, we really want to make a positive difference to those we care for. Thank you!

Once you have completed this form, please email it back to us at:
